SUBJECT INDEX

Abnormalities/Anomalies
arteriovenous malformation of spermatic cord, 427
diphallia, bifid scrotum, duplicaton of cloaca-derived structures, 209
horseshoe kidney, increased incidence of renal pelvis carcinoma, 477
neurofibromatosis, von Recklinghausen disease, 138
posterior urethral valves, siblings, genetics, 291
uremia/azotemia, 67 boys, 205
spontaneous regression of pulmonary metastases from renal cell carcinoma, 141
testicular torsion mimicking epididymitis, scrotal scan, 135
ureteral calculi, pediatric, urinary tract anomalous obstruction, 211
ureteral valves, newborn, urinary ascites, 468
Abscess, perinephric, percutaneous removal of "extra-renal" stone, 202
testicular, rupture, scrotal pyocele, ultrasound, 313
Acetic acid, detection of "white scrotum," transmissible HPV infection, 353 males surveyed, 462
Adenocarcinoma, prostate, Stage A1, extended follow-up of 60 patients, survival rate, 455
AMS 700 CX cylinders, penile prostheses guidelines (Letter), 165
Andrologic surgery, infrapubic, outpatient, 330
Anomalies, *see also* Abnormalities/Anomalies
Ascites, urinary, neonatal, ureteral valves, ureteropelvic junction obstruction, 468

Bacillus Calmette-Guérin (BCG), intravesical therapy, high-risk bladder cancer, 380
Benign hepatic lesions vs renal cell carcinoma, metastasis, diagnostic criteria, 250
Benign prostatic hypertrophy, balloon dilatation, balloon size, 198
Bladder
adenocarcinoma, aggressive invasive, dramatic response to chemotherapy, 53
areflexia/hyperreflexia in tethered-cord syndrome, 80
calculus, vascular graft complication, 57
Cumes single fill bladder evacuator, 61
detrusor instability in Parkinson disease, stress incontinence, 486
female incontinence, short-, long-term surgical results, 285
female stress incontinence, ultrasound assessment of bladder base, UVJ, 443
5-fluorouracil (5-FU) intra-arterial infusion, recurrent adenocarcinoma, segmental cystectomy, 311
foreign body (bobby pin) "Magnetriever," 62
glycoprotein, mucosal urinary tract antibacterial defense mechanism, 127
local anesthetic endoscopy, new rigid multipurpose cystoscope, 193
radiation therapy-associated neoplasms, 185
trauma, extraperitoneal rupture, suturing, catheter drainage, 179
Bladder cancer, *see also* bladder carcinoma
Bladder cancer, aggressive invasive adenocarcinoma, response to chemotherapy, 53
BCG, intravesical, incidence of second primary neoplasm, 380
flow cytometry, bladder washings vs voided urine, DNA cell detection, 89
radical cystectomy, indications for frozen sections of ureteral margins, 451
Bladder carcinoma, *see also* bladder cancer
Bladder carcinoma, radiation therapy-associated, 185
recurrent adenocarcinoma, intra-arterial infusion of 5-fluorouracil (5-FU), 311
transitional cell carcinoma, murine studies of PDT with Hpd, and high dose CP, 230
Bladder carcinoma,
invasive, radical cystectomy, ileal conduit plus chemotherapy, 358
Bladder rupture, CT vs cystographic diagnosis, trauma patients, 341
extraperitoneal trauma, suturing, catheter drainage, 179
Bladder suspension, female stress urinary incontinence, survey, 285
Brain metastasis from prostate carcinoma, regression after orchiectomy plus endocrines, 243

Calculus(i), diuretic ultrasound assessment of obstructed renal unit (Letter), 449
ESWL, Dornier HM3 (SD050) lithotriptor, radiation exposure, 20
lavage catheter removal of stone fragment, 31
hemophiliac risks, preoperative monitoring, 424
upper/lower urinary tract stones, 711 patients, Ohio Kidney Stone Center study, 400
vs surgical lithotomy, patient satisfaction/pain/UTI, 371
giant vesical, arterial graft nidus, 57
nephrolithiasis, linear tomography, 125 patients, 253
percutaneous nephrostomy effect on renal function, 120
percutaneous removal of "extra-renal" stone, perinephric abscess, 202
perinephric abscess due to "lost" calculus at surgery, 202
renal, new pediatric 17-F nephroscope percutaneous removal, 404
percutaneous removal, effect on renal function, lysozymuria, 305
renal cysts, coexisting renal stones, percutaneous nephrostolithotomy, guided cyst puncture, 472
upper urinary tract, medical management: allopurinol/bendrofluazide, 277
ureteral obstruction, rapid localization technique, 146
ureteral, pediatric, anatomic anomalies, 211
peripelvic extravasation, CT diagnosis, 344
Catheter, double pigtail (D-P) stent, tether-attached in Kock pouch, urinary diversion, 227
retrograde lavage with Water-Pik, stone fragment removal, ESWL, 31
six-transducer, use with computer, female urodynamics, 159
UTI, povidone iodine (PVP-I), automatic vs manual release to collecting bag, 97
Chemotherapy (cisplatinum/methotrexate/vinblastine), bladder adenocarcinoma, 53
Cholecystolithotomy, percutaneous, 2 surgical-risk patients, 37
Choriocarcinoma, metastasis from testis to subcutaneous tissue, rare, 320
CT-guided percutaneous needle biopsy, renal adenocarcinoma, nephrectomy, nonmalignant hemorrhagic necrotic hematoma, 125
CT imaging, peripelvic extravasation, ureteral stone, 344
Cystectomy, radical, bladder cancer, ureteroenteric anastomosis, ureteral margin frozen sections, 451
segmental, recurrent adenocarcinoma, intra-arterial infusion 5-fluorouracil (5-FU), 311
Cystoscopy, Miller Integrated Cystoscope, rigid, local anesthetic endocystoscopy, advantages, 193
Cystoscopy sheath, rigid, use in retropubic prostatectomy, 145

Diagnostic Related Group (DRG) hospital payments, 216 Medicare urology patient costs, 445
DNA ploidy correlation with histologic stage/pathologic grade, prostatic cancer, 361
Diphallia, bifid scrotum, urethra/bladder/large intestine duplication, 209
Diverticulum, anterior urethral post-hypospadias repair, pediatric, 40

Doppler nerve-sparing technique in radical retropubic prostatectomy, 228

Eaton-Lambert myasthenic syndrome, prostatic small cell carcinoma, 148
Epididymis, obstructive azoospermia, pregnancy rate, corpus vs caput anastomosis, 47
Epididymo-orchitis, testis rupture, pyocele, orchiectomy, 313
Erections, pharmacologically induced, prostaglandin E_1 after papaverine failure, 15
ESWL, Ohio Kidney Stone Center study, 711 patients, upper/lower tract stones, 400
  radiation exposure, results of control program, 20
  retrograde lavage catheter removal of stone fragments, 31
  risks in hemophilia A, preoperative monitoring, 424
  vs surgical lithotomy, urolithiasis and patient satisfaction, UTI, 371

FasTENS, simple cost-effective electroanalgesia, postoperative urologic surgery, 27
Fibrin glue (FG) in renal/ureteral trauma, 215
Fistula, ileovesical, Meckel diverticulum, diagnosis/complications/management, 475
  prostatorectal, TURP, management: antibiotics/low residue diet/catheter drainage, 418
Flow cytometry, bladder washings vs voided urine, bladder cancer detection, 89
Fluoroquinolones in nosocomial UTI (Letter), 83
Flushing, postorchiectomy, control by Provera, prostate cancer, 175

Gallstone removal by percutaneous cholecystolithotomy, 37
Germ cell tumors, nonseminomatous, modified retroperitoneal lymphadenectomy, 355
Glycoprotein, mucosal urinary tract antibacterial defense mechanism, 127
GU tumor classification, monoclonal antibody to intermediate filament proteins, 433

History, Thomas Hillier, percutaneous nephrostomy, hydronephrosis, 1868 case report, 346
Horseshoe kidney, transitional cell carcinoma, vaginal metastasis from renal pelvis, 477
Human recombinant interleukin-2, renal cell carcinoma, antitumor activity, immunity enhancer, 219
Hydronephrosis, post-traumatic renal hypertension, renal artery embolization, 70
Hygroma, renal, reversible arterial hypertension, rare, 317
Hypercalcemia in renal cell carcinoma, mithramycin, survival significance, 167
Hyperinsulinism, renal cell carcinoma, hypoglycemia, beta-cytotrophic peptide, 238
Hypertension, controlled by ethanol renal angioinfarction, 153
  renal artery embolization, hydronephrosis, 70
  reversible renal, due to perinephric cyst, hygroma, 317
Hypospadias repair, complication, urethral diverticula correction, 40, 43
  silicone foam dressing, 50 pediatric boys, 296
  urethral silicone drainage tube, penile dressings, 327

Immunocytochemistry, monoclonal antibody, intermediate filament proteins, GU tumor classification, 433
Impotence, erectile, male organ transplant recipient, penile prosthesis, 282
  hypospadias repair, ? impotence, legal implications, 300
  NPT and rigidity monitoring, ? impotence, hypospadias repair, legal implications, 300
  papaverine, phentolamine, penile brachial index, Doppler studies, 383
  penile prosthesis, 10-year review, 290 patients, 17
  scleroderma and erectile dysfunction, 189
Incontinence, AMS M800 GU sphincter implant, 42 males, 274
  female, six-transducer catheter evaluation, 159
  female stress, transrectal ultrasound assessment of UVJ, 443
Incontinence,
  female, survey results, postsurgical patients, 285
  stress, Parkinson disease, 486
  surgical correction via AMS M800 GU sphincter implantation, 76% success, 42 males, 274
Infertility, magnetic resonance spectroscopy vs semen analysis, GPC/TP, 116
Instruments, Cumes evacuator, 61
  "Magnetriever" removal of metallic foreign body from bladder, 62
  modified Deschamps needle, retropubic prostatectomy, 324
  new Miller Integrated Cystoscope, rigid, 193
  new Owen microforceps, microneedleholderscissors, microvasovasostomy, 483
Interleukin-2 stimulated lymphocytes or LAK's in tumor lysis, renal cell carcinoma, 106
Intravenous papaverine, continent reservoir construction, urinary diversion, 431
Intussusception, complication of pediatric urologic surgery, 387

Kelami incision in andrologic surgery, local anesthetic, 330
Ketoconazole, high-dose, symptomatic improvement in metastatic prostate cancer, 411
  metastatic Stage D prostate cancer, neurologic complications, 466
Koch pouch ileal reservoir, double-pigtail stent with tether, urinary diversion, 227
Koch pouch surgery, continent ileal reservoir, urinary diversion, 85
Krukenberg tumor of testis (Letter), 351

Leiomyoma, spermatic cord, unusual findings, vasculitis, 236
Lymphadenectomy, ipsilateral, early prostatic cancer, 171
  limited retroperitoneal ejaculatory dysfunction, 355

Meckel diverticulum, ileovesical fistula, 475
Medicare urology patient costs, DRG, 445

Nephrectomy, renal cell carcinoma, preoperative ^{99m}Technetium bone scan imaging, 440
Nephroblastomatosis, metanephric premalignant Wilms tumor lesions, NWTS-2 histologic categories, 259
Nephrolithiasis, linear tomographic evaluation, 253
Nephrolithotomy, percutaneous, new pediatric 17-F nephroscope, 404
Nephrostolithotomy, percutaneous, guidelines for cysts puncture/drainage, renal stone removal, 472
Nephrostomy, percutaneous, Calculi, scarring effect on renal function, 120
  percutaneous, Thomas Hillier 1868 pediatric text, 346
  puncture, urinary lysozyme levels, 305
Nephroureterectomy, upper urinary tract transitional cell carcinoma, careful follow-up, 459
Neurofibromatosis, von Recklinghausen disease mimicking prostatitis, prostatodynia, Schwann cells, 138
Neurofibrosarcoma, radiation-induced, 19 years' post seminoma therapy, 420
Nondilated obstructive uropathy (Letter), 257
Nosocomial UTI, drug resistance (Letter), 83

Obstruction, ureteral, excretory urography, rapid localization technique, 146
Orchiectomy, adjuvant, radical prostatectomy, Stage D adenocarcinoma, 266 patients, Suppl. (5), 27
  bilateral, scrotal circumferential pressure dressing, hematoma prevention, 429
  prostate carcinoma, control of postoperative flushing, 175

Papillomaviral infection, sexually transmitted via HPV infected females, acetic acid test, 462
Parkinson disease, detrusor instability, urinary stress incontinence, 486
Pediatric urologic surgical complications, postoperative intussusception, 387

Penile prostheses, AMS 700 CX implants (Letter), 165
implants in organ transplant recipients (renal/cardiac), antibiotics/steroids, success rate, 282
necrosis of corporeal septum due to cylinder dilatation, 416
Scott inflatable, reimplantation success rates, 10-year review, 17
Penis, erectile failure, papaverine/phentolamine, NPT/rigidity monitoring, 383
Kelami incision, andrologic surgery, 330
necrosis of corporeal septum secondary to aneurysmal dilatation of prosthesis, 416
prostaglandin E_1-induced erection after papaverine failure, 15
reconstructive pediatric surgery, silicone foam dressing, 296
scleroderma, corpus cavernosum biopsy, impotence, 189
Prostate
benign prostatic hypertrophy, balloon dilatation, TURP, 198
mucinous adenocarcinoma, histologic diagnostic criteria, metastases, 247
obstruction, small cell carcinoma, rare, biopsy diagnosis, 78
TURP, 5-fluorouracil (5-FU) preoperatively, reduced operative bleeding, 407
Prostate cancer, *see also* prostate carcinoma
Prostate cancer, adjuvant orchiectomy, radical prostatectomy, Stage D, 266 patients, Suppl. (5), 27
advanced Stage D_2, prognostic factors, pretreatment testosterone levels, bone scans, Suppl. (5), 53
delayed implantation after needle biopsy (Letter), 351
external beam radiation, Stages A, B, and C, Suppl. (5), 21, 37
goserelin (Zoladex)/LHRH vs orchiectomy and DES, UK multicenter studies, Suppl. (5), 45
lymph node metastasis, ipsilateral pelvic lymphadenectomy, 171
metastatic, ketoconazole, high-dose, testosterone reduction, side effects/toxicity, 411
luteinizing hormone-releasing hormone (LHRH), LHRH agonists, Suppl. (5), 42
mucinous adenocarcinoma, rare, diagnostic criteria, 247
needle biopsy complication, perineal tumor implant, 59
perineal implant after transperineal biopsy (Letter), 449
prostatectomy, radical, patient selection criteria, Stage A, Suppl. (5), 17
prostate-specific antigen (PSA) vs prostatic acid phosphatase (PAP) in tumor marking, Suppl. (5), 11; Suppl. (6), 13
radical retropubic prostatectomy, modified Deschamps needle, 324
screening tests: PSA, TRUS, NRF, Suppl. (6), 13
Stage C, locally advanced, external beam radiation, Suppl. (5), 21, 37
Symposium: Prostatic Cancer, New Insights and Controversies, Suppl. (5), 1–57
Symposium: Role of Ultrasound in Prostate Imaging, Suppl. (6), 1–32
transrectal ultrasound-guided biopsy, diagnosis, staging, anatomic review, Suppl. (5), 5; Suppl. (6), 2, 7
transrectal ultrasonography, digital rectal exam, screening/staging/early detection/echoicgenicity, Suppl. (6), 2, 7
transrectal ultrasound, staging, prostate shape, echopatterns, Suppl. (6), 27
PSA, prebiopsy antibiotics (carbenicillin), pre-, post-biopsy, Suppl. (6), 32
transrectal ultrasound (TRUSP) in staging, 103
Zoladex (goserelin acetate), vs surgery, Stage D, patients' treatment choices, Suppl. (5), 57
treatment choices, Suppl. (5), 42, 45, 47
vs LHRH, DES, and orchiectomy treatments, multicenter studies, Suppl. (5), 45
Prostate carcinoma, *see also* prostate cancer
Prostate carcinoma
adenocarcinoma, metastatic potential, TRUS, Suppl. (6), 18
comparison of grading systems *in re* metastatic potential, Suppl. (6), 18
DNA ploidy correlation with stage/grade, 361
histologic heterogeneity: ductal/mucinous, nuclear morphometry, Suppl. (6), 18
Prostate carcinoma,
metastatic Stage D, ketoconazole therapy, side effects, neurologic complications, 466
metastasis to brain, endocrine therapy, blood-brain barrier permeability, 243
mortality, definitive radiation, rebiopsy, 147 patients, 1
needle-biopsy spilling of tumor cells (Letter), 351
perineal tumor implant five years after needle biopsy, 59
postorchiectomy flushing, medroxyprogesterone acetate (Provera), control, 175
small cell anaplastic, rare, biopsy diagnosis 78
small cell, myasthenic (Eaton-Lambert) syndrome, 148
small-cell (oat-cell), primary tumor, aggressive chemotherapy, rare, 332
Stage A1, prognosis/treatment/follow-up, 60 patients, 455
Stage C, external beam radiation therapy, metastases to testes 6 years later, 322
stage/grade, transrectal ultrasonography determination, 103
survival *in re* tumor grade/stage/lymph node/radiation, 1
Prostate-specific antigen (PSA) in acute bacterial prostatitis, 465
Prostatectomy, radical, Doppler-assisted nerve-sparing technique, 228
radical retropubic, modified Deschamps needle, 324
retropubic, rigid cystoscopy sheath, 145
Prostatism, ultrasonographic measure of prostate volume in BPH, 336
Prostatitis, acute bacterial, elevated serum PSA levels, 465
psychogenic "stress" origin (Letter), 449
Pyeloplasty, obstructive uropathy in newborn, 468
Pyeloplasty/ureterocalycostomy, simultaneous bilateral procedures for ureteropelvic junction obstruction, 390

Radiation therapy-associated invasive bladder tumors, 185
Renal adenocarcinoma, cytologic diagnosis, CT-guided percutaneous needle biopsy, nephrectomy, non-malignant hemorrhagic, necrotic hematoma, 125
Renal angioinfarction, control of hypertension, 153
Renal artery embolization, hypertension, hydronephrosis, 70
Renal cell adenocarcinoma, LAK's antitumor activity, 106
Renal cell carcinoma, advanced, human recombinant interleukin-2 (IL-2), 219
vs benign liver lesions, diagnosis, 250
hypercalcemia, mithramycin, complications, management, 167
hyperinsulinism, renal tumor involvement, 238
nephrectomy, bone scan imaging, metastases detection, 440
spontaneous regression of pulmonary metastases, 141
Renal cysts, coexisting stones, cysts puncture/drainage during nephrostolithotomy, 472
renal hydatidosis, surgery, sheep, mebendazole, 241
Renal hydatidosis with hydatidcysturia, surgery, rare in humans, 241
Renal hypothermia, techniques in kidney transplant, 110
Renal lacerations, CT scan evaluation, conservative management vs surgery, 122 patients, 367
Renal pelvis transitional cell carcinoma, horseshoe kidney, vaginal metastasis, 477
Renal transplant, hypothermia techniques, ureteroneocystostomy, nephrostent, 110
Renal trauma, CT evaluation (Letter), 165
Renal/ureteral trauma, fibrin glue (FC) hemostasis/anastomosis, 215
Renal ultrasonographic induced diuresis, stone obstruction (Letter), 449
Rhabdomyosarcoma, pediatric genitourinary, male, ultrasound diagnosis, 64

Scleroderma, causal factor in erectile dysfunction, impotence, 189
Scrotum, underdeveloped, tissue expander technique, 6
"white scrotum," reservoir for transmissible HPV infection, 462
Semen analysis vs phosphorus-31 magnetic resonance spectroscopy, infertility, 116
Seminoma, radiation-induced neurofibrosarcoma, 420

Small-cell carcinoma, pure/mixed extrapulmonary, prostate, histiogenesis, 332
Spermatic cord leiomyoma, unusual histology, 236
Stents, hollow, absorbable polyglycolic acid tube, use in microvasovasostomy, rats, 490

^{99m}Technetium bone scan imaging, renal cell carcinoma metastases detection, 440
Teratoma, differentiated, in adult testis, benign form, 481
  nonseminomatous, recurrence after remission with PVP chemotherapy/surgery, 10
  paratesticular metastases, tunica vaginalis, epididymis, infant, 131
Testicular cancer, metastatic, AFP and HCG, histoimmunologic reactions, 74
Testicular torsion, acute, spontaneous reduction, radionuclide scrotal scan, 135
Testis(es)
  arteriovenous malformation of spermatic cord, hard scrotal mass, 427
  carcinoma, metastatic from prostate 6 years after radiation, 322
  choriocarcinoma, metastasis to subcutaneous tissue from testis, HCG tumor marker, 320
  germ cell tumor, nonseminomatous, modified retroperitoneal lymphadenectomy, 355
  high/low transferrin levels in idiopathic oligozoospermia, 395
  Krukenberg malignant tumor (Letter), 351
  metastatic germ cell cancer, post radiation or chemotherapy detection of AFP and HCG, 74
  oligozoospermia, idiopathic, transferrin evaluation of testicular function, 395
  paratesticular mass, spermatic cord arteriovenous malformation, 427
  retroperitoneal tumor metastases, congenital, infant, 131
  scrotum tissue expander prosthesis, technique, 6
  seminoma, radiation-induced neurofibrosarcoma, 19 years after therapy, 420
  spontaneous rupture, pyocele, orchiectomy, 313
  teratoma, mature, recurrence after chemotherapy/surgery, 10 metastasizing in benign form in adult, 481
  torsion vs epididymo-orchitis, scrotal scan, 135
Tethered-cord syndrome, spinal dysrhaphism, urodynamics, 80
Transitional cell carcinoma, murine, interaction of photodynamic therapy with hematoporphyrin derivatives, 230
  upper urinary tract, nephroureterectomy, 459
  vaginal metastasis from renal pelvis, horseshoe kidney, 477
Transplant patients (renal/cardiac), penile prosthesis success, 282
Transureteroureterostomy, after anastomosis complications of ureterosigmoidostomy, urinary diversion, 271
Trauma, bladder rupture, CT vs cystographic diagnosis, 341
  renal, CT scan (Letter), 165
  renal lacerations, admission CT scan to determine conservative/surgical management, 367
  renal/ureteral, fibrin glue (FG) for hemostasis/anastomosis, 215
Tumor markers, testicular cancer, serum AFP and HCG, 74
TURP, complication, iatrogenic prostatorectal fistula, 418
  5-fluorouracil (5-FU) preoperatively reduces blood loss, 407
  video transurethral resection, systems evaluation (Letter), 352

Ultrasonographic measure of prostate volume in prostatism, 336
Ultrasound diagnosis of rhabdomyosarcoma, male pediatric, genitourinary, 64
Upper urinary tract, transitional cell carcinoma, intravenous urogram prognosis, 459
Upper urinary tract,
  stone, oral allopurinol/bendrofluazide medical management, 300 male/female patients, 277
Ureter, lumbar ureteral shunt complications, 309
Ureteral obstruction, distal, rapid localization technique, 146
  lumbar ureteral shunt complications, 309
Ureteral valves, newborn ascites, ureteropelvic junction obstruction, pyeloplasty, 468
Ureterocele, vesicoureteral reflux, heminephrectomy, infant, 302
Ureteropelvic junction obstruction, simultaneous bilateral pyeloplasty, 390
Ureterosigmoidostomy, transureteroureterostomy, ureteral anastomotic complication, 271
Urethra, posterior urethral valves, azotemia, transurethral fulguration/urinary diversion, 67 boys, 205
  posterior valves, siblings (twins/non-twins), genetic tissue typing, 291
  retrograde balloon dilation (Letter), 257
Urethral closure function evaluation, six-transducer catheter use with computer, 159
Urethral diverticula, acquired, surgical correction, 40
Urethral profilometry, Scott artificial urinary sphincter (Letter), 83
Urethral silicone drainage tube, penile dressings, hypospadias repair, 327
Urethroplasty, microsurgical hypospadias repair, 43
Urinary diversion, continent ileal reservoir, Koch pouch surgery, metabolic changes, 85
  double-pigtail stent, tether-attached in Koch pouch, 227
  ileal conduit with systemic chemotherapy, bladder cancer, 358
  IV papaverine use in continent reservoir construction, 431
  posterior urethral valves, azotemia, 205
  transureteroureterostomy, ureterosigmoidostomy, anastomosis complications, 271
Urinary incontinence in Parkinson disease, detrusor instability, 486
Urinary lysozyme activity assessment of renal function, nephrolithiasis patients, 305
Urinary sphincter, Scott artificial, urethral profilometry (Letter), 83
Urinary tract infection, Curity Infection Control Tray (CICT), new drainage system, 97
  nosocomial drug resistance, fluoroquinolones (Letter), 83
  povidone iodine (PVP-I), automatic release, bacterial barrier, 97
Urologic surgery, FasTENS vs TENS in postoperative electroanalgesia, 27
  hematoma prevention, orchiectomy, scrotal circumferential pressure dressing, 429
Uropathy, nondilated obstructive, renography (Letter), 257

Vasoepididymostomy, azoospermia due to bilateral blockage, corpus/caput, epididymis, 47
Vasovasostomy, bilateral, hollow, absorbable polyglycolic acid tube as stent, rat studies, 490
  new Owen microneedleholderscissors/microforceps, 483
Vesicoileal fistula, Meckel diverticulum, management, 475
Vesicoureteral reflux, heminephrectomy for ureterocele, male infant, 302
Video TURP, CCF resectoscope, surgical field visualization (Letter), 352
von Recklinghausen disease, neurofibromatosis, in 30-year-old, 138

Wilms tumorlets, malignancy potential, nephroblastomatosis: characterization/diagnosis/treatment, NWTS-2, 259
